

ZINZINO CERTIFICATES EXPLAINED

FRIEND OF THE SEA

Friend of the Sea is the only sustainable fisheries certification program recognized and supervised globally by a National Accreditation Body. [READ MORE](#)

GMP CERTIFIED

Good manufacturing practices are the practices required in order to conform to the guidelines recommended by agencies that control the authorization and licensing of the manufacture and sale of food and beverages, cosmetics, pharmaceutical products, dietary supplements, and medical devices. [READ MORE](#)

GMO-FREE

A GMO, or genetically modified organism, is a plant, animal, microorganism or other organism whose genetic makeup has been modified in a laboratory using genetic engineering or transgenic technology. This creates combinations of plant, animal, bacterial and virus genes that do not occur in nature or through traditional crossbreeding methods. [READ MORE](#)

THE VEGAN SOCIETY

The Vegan Society register products and services with the internationally registered, globally recognized Vegan Trademark logo. This demonstrates to consumers that products or services do not contain animal-derived ingredients and have not involved animal testing. On gaining registration with the Vegan Trademark, companies holding the licence are able to use the trusted logo on the registered product's packaging. [READ MORE](#)

PET

PET is globally recognized as a safe, recyclable packaging material. Numerous tests have created a broad scientific consensus that PET is non-toxic and is a safe material for the storage of food and beverages. Facts on PET support the efforts of regulators to ensure that plastics are safe for the public through scientific testing and analysis. (Stamp is located on the bottom of the bottle) [READ MORE](#)

INFORMED SPORT PROGRAM

Informed Sport is a global testing and certification program for sports and nutritional supplements. Supplement products are tested by LGC's world-class anti-doping laboratory for contamination against a broad range of banned substances in sport, using ISO 17025 accredited methods. When you see the Informed Sport quality mark on a product, you can be assured that it has passed the most stringent sports supplements testing. [READ MORE](#)

[READ MORE](#)

HALAL CONTROL

HALAL CONTROL (HC) is an independent inspection and certification body, engaged in the conformity assessment and halal certification of products, processes and services in the food, chemical, pharmaceutical, cosmetics and logistics industries. Products are in compliance with the Halal requirements in accordance with the Islamic Law. [READ MORE](#)

KETO FRIENDLY

The keto diet is a low-carb, higher-fat diet. While you eat far fewer carbohydrates on a keto diet, you maintain moderate protein consumption and may increase your intake of fat. The reduction in carb intake puts your body in a metabolic state called ketosis, where fat, from your diet and from your body, is burned for energy. [READ MORE](#)

MARINE STEWARDSHIP COUNCIL

The Marine Stewardship Council is an international non-profit organization. The blue MSC label is only applied to wild fish or seafood from fisheries that have been certified to the MSC Fisheries Standard, a set of requirements for sustainable fishing. Fish and seafood with the blue label comes from a fishery that has been independently assessed on its impacts to wild fish populations and the ecosystems they're part of. [READ MORE](#)
